

SAHITHYAN KANDATHASAN

SOFTWARE ENGINEER

I am a young web developer with more than 8 years of experience in developing high quality software including websites and mobile apps. I specialize in building responsive, performant, visually pleasing web apps that match today's trends.

RECENT WORK

S1 and S2

Documented what I studied in my 1st year at my university.

moraexams.org - Mora Exams Rebuild

The site was migrated from PHP to Astro + React. I managed a team of 6 beginner-level developers for the migration.

Kalvi.lk - Exam papers for school teachers & students

A huge repository of exam papers that are presented in a minimal website.

XCalc - Extended calculator

A niche web+mobile calculator app that supports additional functionality such as isPrime and primeFactorize.

Freelancing projects

- Optimizing websites for performance and internal SEO
- Building modern browser extensions and migrating old ones
- Creating front-ends with a focus on UI/UX best practices
- Front-end done in React.js and Tailwind

More of my work is listed on my website.
